1 Without graduates of graduate studies. Data are not identical to the number of total passed exams at higher education institutions in table 1.9.6. Until 2012, demarcation pursuant to ISCED 1997 level 5A; as of 2013, demarcation pursuant to ISCED 2011 level 6 sub-category 645 and level 7 sub-category 746.

2 Net rates according to the OECD calculation method (Therefore the number of first-time graduates of that age is divided by the total population of the corresponding age. These age-specific graduation rates are added up to net graduation rates.)

3 Allocation of study areas to subject groups pursuant to the subject classification of the higher education statistics version 2015. For comparative purposes the results were calculated back to 2005.
