a = data not applicable because category does not apply; c = too few observations to provide reliable estimates. The calculation of the Länder averages includes those figures; y = data included in other category.

Percentage of 18 to 24 year-olds in education/not in education, by work status¹

- 1 According to the ISCED classification: International Standard Classification for Education 2011.
- 2 NEET refers to young people neither employed nor in education or training but following non-formal studies. For more details see source.
- 3 In 2022, values are partly below a certain reliability threshold and should be interpreted with caution (see source).
- 4 Average of 25 states of the European Union (only OECD countries, partners and/or accession countries of the OECD) after the United Kingdom left the EU. The data were calculated back for the entire time series.
